Re: Star Pipe Products Joint Restraints are recommended on IPEX C909 PVCO Pipe

We are excited to announce that Star Pipe Products has successfully completed testing of IPEX Bionax™ C909 PVCO pipe in sizes 4" through 12" with Star joint restraint products. The Star Series 3500 PVC Ring Lock restraint is rated to the full pressure of the pipe on sizes through 10", and to 150 psi on 12", with a 2:1 minimum safety factor.

In addition, the Star Series 4000 PVC Stargrip restraint is rated to 150 psi on sizes through 12", with a 2:1 minimum safety factor.

Please contact Star Pipe Products with system test and operating pressures for specific restraint recommendations.

Sincerely,

*Jason O'Nan
